Ping Chiu
Pacific Life

Ping Chiu, Actuarial Ana II, graduated from Notre Dame in May 2017. In the summer of 2016, he started at Pacific Life as an Actuary Intern. After graduation, he was hired full time at Pacific Life.

Allison Dahl
Allianz Life Insurance Company

Allison Dahl is an analyst for Allianz Investment Management at Allianz Life Insurance Company of North America in Minneapolis, MN. After graduating from the University of Notre Dame with a Bachelor of Science in ACMS and a minor in Actuarial Science in 2016, Allison worked on a trade desk as a derivatives analyst, executing static and dynamic hedge strategies as well as developing software to support daily trading activities. As an Investment Strategy analyst, Allison supplies reporting and analysis and collaborates with the Actuarial, Finance, and Risk departments on business solutions for asset liability management. She is currently pursuing an ASA designation.

Sarah Eide
Allianz Life Insurance Company

Sarah Eide graduated from Notre Dame in 2014 with majors in marketing and economics. She has worked at Allianz for just over 2 years and was introduced to both Allianz and the actuarial profession during her work with the company as an external consultant. Sarah began taking exams as she worked toward an actuarial role with Allianz and is currently pursuing her ASA. Sarah works on the Actuarial Transformation team, responsible for long-term projects including the implementation of new standards and regulations.

Dan Gorman
Aon Health Solutions

Dan Gorman is an actuarial analyst in Aon's Health Solutions practice in the Chicago office. His main responsibilities are to support clients with assessing strategic initiatives and performing financial analyses related to employer health plans. This work includes projecting health care claim costs, developing rates and contributions, estimating reserves, and performing investigative analyses to understand population health characteristics. He is also a member of Aon's trend team that researches and provides guidance to the health practice on cost and utilization trends based on internal data and reporting from market and academic sources. He also supports model development for the Risk Management team to improve the aggregate risk modeling tool used nationally by the practice. He is also actively working towards his FSA. He joined the Health Solutions team in July 2016 after graduating from the University of Notre Dame with majors in ACMS and Economics. He also interned in an actuarial role at Health Solutions with Aon in the summer of 2015 before joining full-time.

**Kierstin Sieftring
Nyhart**

Kierstin Sieftring graduated from the University of Notre Dame in May of 2019. She majored in Applied and Computational Mathematics and Statistics (ACMS), minored in Actuarial Sciences, and resided in Farley Hall. Kierstin interned at USAA in the auto pricing unit during the summer of 2018. For the past couple of months, she has been working at Nyhart in Indianapolis as a pension actuary. Kierstin is currently in pursuit of her ASA.
